The applicant fora particular Subject must satisfy the eligibility criteria as specified in this Information Bulletin(or its amendments/corrections from time to time).

- No certificates (other than PwBD/Category certificate, as applicable) are required to be uploaded along with the online application at the time of online submission.
- The documents/certificates etc., shall be verified directly at the time of admission in the admitting university. In case the candidate is found not-eligible at any stage, his/her candidature would be summarily rejected and admission will be cancelled.

Filling of ICAR All India Quota (AIQ) seats in PG programmes will be permitted in AgriculturalUniversities / Institutes under the ICAR-AU system.

ii. Candidate should note that for admission to Master's degree programmes through entranceexamination conducted by NTA, only the candidates having passed graduation with four/six(12+4/10+6 B.Sc. Ag./B.Tech.) / five years (B.V.Sc. & AH) / 5½ years (B.V.Sc. & AH) degree programme will be eligible.

iii. Equivalence of Degrees will be decided by the admitting university only, as per the UGC PublicNotice No.F9-3/2016(CPP-II) dated 19th July, 2016.

iv. **The candidates having Bachelor's degree with 3 years' duration will not be considered for admission through ICAR AIEEA (PG)-2025 in AUs under ICAR-AU system except in few courses at three ICAR-Deemed to be Universities (DUs), *viz*. IARI, IVRI and NDRI** for which the eligibility criteria of the concerned ICAR-DU, including admission of graduates having passedwith 3 years' degree, would prevail for admission.

v. Further, in case any degree from a particular college/university is not considered for admission by an Agricultural University on account of a particular college/university being derecognized by VCI/UGC, or due to any Court directives (present or future), ICAR will not be responsible for admitting students of that college/university in the Universities not willingto admit such candidates.

vi. The Candidate must have passed Bachelor degree examination securing Overall Grade PointAverage (OGPA) of at least 6.60/10.00 in ten-point scale, 5.88/9.00 in nine-point scale, 5.22/8.00 in eight point scale, 4.57/7.00 in seven point scale, 3.92/6.00 in six point-scale, 3.25/5.00 in five-point scale, 2.60/4.00 in four-point scale for General, OBC, UPS and EWS categories whereas for SC/ST/PwBD/Third Gender candidates, the said requirement is an OGPA of at least 5.60/10.00, 4.98/9.00 in nine-point scale, 4.42/8.00

in eight point scale, 3.87/7.00 in seven point scale, 3.32/6.00 in six point- scale, 2.75/5.00, 2.20/4.00, respectively. In other cases, where grade points are not awarded and only marks areawarded, the candidate must have secured at least 60% marks for General, OBC, UPS and EWS categories whereas for SC/ST/ Third Gender /PwBD categories the requirement is 50% marks. (Please note that equivalence between OGPA and % marks will not be acceptable). There will be **no rounding-off of the OGPA/percentage of marks** of qualifying examination while deciding the basic eligibility of any candidate for admission e.g. if a candidate obtained 49.99% marks in his/her qualifying examination, then it will not be rounded-off to 50%.

vii. The candidate must complete the undergraduate degree (other than Veterinary Stream) in all respects and should have all the degree- completion requirements on 31.07.2025; failing which they will not be considered for admission and the award of scholarships. In case of Veterinary Stream, this date will be 15.01.2026. Please note that ICAR/University will NOT be held responsible for denial of admission to non-eligible candidates.

viii. The candidates (other than Veterinary Stream) who do not have the Degree/PDC, have to mandatorily produce a certificate from the Registrar of the concerned university specifically indicating that the candidate has fulfilled on 31.07.2025, all the requirements for the award of Bachelors' degree including his/her Final OGPA/Percentage of marks at the end of final semester/year. For Veterinary Stream candidates, such certificate should additionally include completion of internship and viva-voce on 15.01.2026.

ix. The candidates should note that the university may deny admission in case the PDC/Degree completed by 31.07.2025 (15.01.2026 in case of Veterinary Stream), is not produced at the time of verification during online counseling. No correspondence shall be entertained by the Council in this regard.

x. Since VCI has already issued instructions to Veterinary colleges to finish the Academic year for B.V.Sc. & A.H candidates during the month of December. Therefore, all the State Veterinary Universities (SVUs) and constituent colleges of veterinary sciences under the State Agricultural Universities (SAUs) have to synchronize the start of their Academic Session accordingly. Since the OGPA of such candidates would be available, and internship grades are reflected as satisfactory/unsatisfactory only, they would be deemed provisionally eligible to appear in the ICAR's AIEEA (PG) examination. However, such candidates will be mandatorily required to produce evidence of completion of graduation degree in all respects including successful completion of Internship training programme and viva-voce on 15/01/2026, during counselling in the allotted university.

xi. **The admission of the candidates shall be valid only for the Academic Session (2025-26) in which the examination has been conducted by ICAR**.

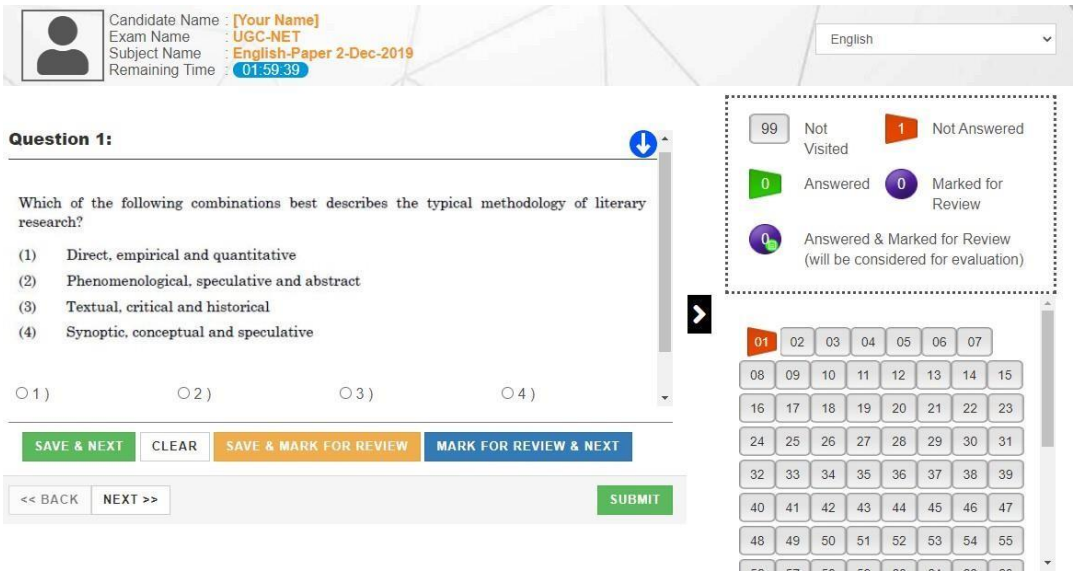
13. Candidate can view the corresponding section summery as part of the legend that appears in every sectionabove the question palette.

The keyboard attached to the computer, if any, will be disabled during the entire duration of the examination. Dependingon the type of question, the answers to questions can either be entered by clicking on the virtual on-screen keyboard (numeric or otherwise) using the computer mouse or by clicking the chosen option(s) using the computer mouse. Candidates will have the option to change/modify answers already entered anytime during the entire duration of the examination.

In case the computer/mouse allotted to any candidate malfunctions anytime during the test, he/she will be immediately allotted another computer system and the time lost due to this will be adjusted in the server so as to give the candidate the full allotted time.

The on-screen computer clock counter of every candidate will be set at the server. The countdown timer in the top right side of computer screen will display the time remaining (in minutes) available for the candidate to complete theexamination. When the timer reaches zero, the Examination will end by itself. Candidate will not be required to end or submit the examination.



(d) The Question Palette displayed on the right side of screen will show the status of each question using one of thefollowing symbols:

The question(s) "Answered and Marked for Review" status for a question indicates that candidate would like to have a relook at that question again. A candidate has the option of answering a question and simultaneously "Marked for Review", these answers will be considered for evaluation. However, if a candidate has simply put "Marked for Review" for a question without answering it, the corresponding question marked for review without an answer will not be considered for evaluation. It may be noted that a candidate can return to any "Marked for Review" question any time during the Examination by clicking on the corresponding question number icon displayed on the Question Palette of the corresponding section.

(e) Candidate can click on the ">" arrow which appears to the left of question palette to collapse the question palette thereby maximizing the question viewing window. To view the question palette again, candidate can click on "<" which appears on the right side of question window.

ANNEXURE-IX

National Testing Agency (NTA) Procedure to be adopted for compilation of NTA scores for multi session Papers (Normalization procedure based on PERCENTILE SCORE)

NTA may conduct examinations on multiple dates (may be in two sessions per day). The candidates will be given different sets of questions per session and it is quite possible that in spite of all efforts of maintaining equivalence among various question papers, the difficulty level of these question papers administered in different sessions may not be exactlythe same. Some of the candidates may end up attempting a relatively tougher set of questions when compared to othersets. The candidates who attempt the comparatively tougher examination are likely to get lower marks as compared to those who attempt the easier one. In order to overcome such a situation, **"Normalization procedure based on Percentile Score"** will be used for ensuring that candidates are neither benefitted nor disadvantaged due to the difficulty level of the examination. With the objective of ensuring that a candidate's true merit is identified, and that a level playing fieldis created in the above context, the Normalization Procedure, set out below shall be adopted, for compiling the NTA scores for multi session papers.

The process of Normalization is an established practice for comparing candidate scores across multi session papers andis similar to those being adopted in other large educational selection tests conducted in India. For normalization acrosssections, NTA shall use the percentile equivalence.

Percentile Scores: Percentile scores are scores based on the relative performance of all those who appear for the examination. Basically, the marks obtained are transformed into a scale ranging from 100 to 0 for each session of examinees.

The Percentile Score indicates the percentage of candidates that have scored EQUAL TO OR BELOW (same or lower rawscores) **that particular Percentile in that examination. Therefore, the topper (highest score) of each session will get the same Percentile of 100 which is desirable. The marks obtained in between the highest and lowest scores are also converted to appropriate Percentiles.**

The Percentile score will be the Normalized Score for the examination (instead of the raw marks of the candidate) andshall be used for preparation of the merit lists**.**

The Percentile Scores will be calculated up to 7 decimal places to avoid bunching effect and

reduce ties.The Percentile score of a Candidate is calculated as follows:

$$\frac{\text{100 X Number of candidates appeared in the 'Session' with raw score EQUAL TO OR LESS than the candidate}}{\text{Total number of the candidates appeared in the 'Session'}}$$

Note: The Percentile of the Total shall **NOT be** an aggregate or average of the Percentile of individual subject. Percentilescore is not the same as percentage of marks obtained.

Example: Suppose a test was held in 4 sessions of examinees as per details given below:-(Allocation of Days and shifts were done randomly)

(a) Distribution of candidates were as follows:

Session-1: Day-1 Shift-1, **Session-2:** Day-1 Shift-2, **Session-3:** Day-2 Shift-1 and **Session-4:** Day-2 Shift-2

Session	Day/Shift	No of Candidates			Marks	
		Absent	Appeared	Total	Highest	Lowest
Session-1	Day-1 Shift-1	3974	28012	31986	335	-39
Session-2	Day-1 Shift-2	6189	32541	38730	346	-38
Session-3	Day-2 Shift-1	6036	41326	47362	331	-49
Session-4	Day-2 Shift-2	9074	40603	49677	332	-44
Total (Session-1 to Session-4)		25273	142482	167755	346	-49

In this method of scoring the HIGHEST RAW SCORE in each paper (irrespective of the raw scores) will be the 100 Percentileindicating that 100% of candidates have scores equal to or lesser than the highest scorer/ topper for that session.

Highest Raw Score and Percentile Score: All the highest raw scores will have normalized Percentile Score of 100 for theirrespective session.

Session	Total Candidates Appeared	Highest Raw Score	Candidates who scored EQUAL OR LESS THAN Highest Raw Score	Percentile Score	Remarks
Session-1	28012	335	28012	100.0000000 [(28012/28012)*100]	i.e. **all the highest raw scores** would be **normalized** to 100 Percentile Score for their respective session.
Session -2	32541	346	32541	100.0000000 [(32541/32541)*100]	
Session -3	41326	331	41326	100.0000000 [(41326/41326)*100]	
Session -4	40603	332	40603	100.0000000 [(40603/40603)*100]	

Lowest Raw Score and Percentile Score: Percentile Score of all the lowest raw scores will depend on the total number ofcandidates who have taken the examination for their respective session.

Session	Total Candidates Appeared	Lowest Raw Score	Candidates who scored EQUAL OR LESS THAN Lowest Raw Score	Percentile Score	Remarks
Session -1	28012	-39	1	0.0035699 [(1/28012)*100]	i.e. Percentile Score of **all the lowest raw scores are different** i.e. Percentile Score depend on the total number of candidates who have taken the examination for their respective session.
Session -2	32541	-38	1	0.0030730 [(1/32541)*100]	
Session -3	41326	-49	1	0.0024198 [(1/41326)*100]	
Session -4	40603	-44	1	0.0024629 [(1/40603)*100]	

The following is a further explanation of the interpretation of the raw scores and Percentile Score in Session-3 (Day-2and Shift-1) with 41326 candidates who have taken the examination.

Candidate	Percentile Score	No of Candidates	Raw Score	Remark
A	**100.0000000** [(41326/41326)*100]	**1**	**331**	Indicates that amongst those appeared, 100% have scored either EQUAL TO OR LESS THAN the candidate A **(331 raw score)**.
				It also indicates that no candidate has scored more than the candidate A **(331 raw score)**.
B	**90.1224411** [(37244/41326)*100]	**77**	**121**	Indicates that amongst those appeared, 90.1224411% have scored either EQUAL TO OR LESS THAN the candidate B **(121 raw score)**.
				It also indicates that remaining candidates have scored more than candidate B **(121 raw score)**.
C	**50.4549194** [(20851/41326)*100]	**381**	**41**	Indicates that amongst those appeared, 50.4549194% have scored either EQUAL TO OR LESS THAN the candidate C **(41 raw score)**.
				It also indicates that remaining those appeared have scored more than candidate C **(41 raw score)**.
D	**31.7040120**	**789**	**25**	Indicates that amongst those appeared, 31.7040120% have
	[(13102/41326			scored either EQUAL TO OR LESS THAN the candidate D **(25**
	)*100]			**raw score)**

				It also indicates that remaining candidates have scored more than candidate D **(25 raw score)**.
E	**1.1034216** [(456/41326)* 100]	**100**	**-15**	Indicates that amongst those appeared, 1.1034216% have scored either EQUAL TO OR LESS THAN the candidate E **(-15 raw score)**
				It also indicates that remaining candidates have scored more than candidate E **(-15 raw score)**

STEP-BY-STEP PROCEDURE FOR NORMALIZATION AND PREPARATION OF RESULT:

Step-1: Distribution of Examinees in two shifts:

Candidates have to be distributed into two sessions randomly so that each session has approximately equalnumber of candidates. These two sessions would be as follows:

Session-1: Day-1 Shift-1, Session**-2:** Day-1 Shift-2

In the event of more number of days or less number of shifts, the candidates will be divided accordingly. This will ensure that there is no bias in the distribution of candidates who shall take the examination. Further,with a large population of examinees spread over the entire country the possibility of such bias becomes remote.

Step-2: Preparation of Results for each Session:

The examination results for **each session** would be prepared in the form of

- Raw Scores
- Percentiles Scores of Total raw scores.

The Percentiles would be calculated for each candidate in the Session as follows:Let TP1 be the Percentile Scores of Total Raw Score of that candidate.

$$\textbf{Total Percentile (TP1) :} \quad 100 \times \frac{\textbf{No. of candidates appeared from the session with raw score EQUAL TO OR LESS than T1 score}}{\textbf{Total No. of candidates appeared in the session}}$$

Step-3: Compilation of NTA score and Preparation of Result:

The Percentile scores for the Total Raw Score for all the sessions **(Session-1:** Day-1 Shift-1**, Session-2:** Day-1 Shift-2) **as calculated in Step-2 above would be merged and shall be called the NTA scores which will then be used for compilation of result and further processing for deciding the allocation.**

In the events of the percentiles for the multi-shifts being dissimilar / unequal, the lowest will be the eligibility cut-off for that category for all candidates (i.e. all shifts).

For Example: In an the examination held in two shifts, if the 40% marks correspond to a Percentile score of 78 inShift 1 and 79 in Shift 2, then all those equal to or above 78 percentiles (Percentile score of 100 to 78) in both shifts will become eligible in General Category. Similar method will be adopted for the other categories to determine eligibility cut-offs.

In case the examination is held in more number of shifts the same principle shall apply.
